**HISSAN TRADING INDONESIA
COMPANY PROFILE**

COMPANY PROFILE

Since its founding in 1915, Denka has worked to contribute to social development and win the trust of society through manufacturing operations on chemical engineering. Denka have 2 subsidiary companies in Indonesia, PT. Hissan Trading Indonesia under management of Akros Trading Co., Ltd. Japan and PT. Estop Indonesia under management of Denka Chemical Construction Malaysia (Formerly known as ESTOP Sdn. Bhd).

In connection with the restructuring plan and to maintain the quality of service in Indonesia, PT Hissan Trading Indonesia as Denka Group Member, has appointed to be distributor of Denka and Estop brand in Indonesia.

PT. Hissan Trading Indonesia will strive to fulfil customer needs using Japan advance technology in construction chemicals products. With the combination of ESTOP and DENKA technology, we are now geared up to provide absolute "Concrete Solutions" to the Indonesia construction business.

PT Hissan Trading Indonesia also aim to satisfy every need of customers by our broad networks with a variety of products ranging from standard materials to high-quality materials by Trading Business (Import & Export) of Chemical Raw Materials, Building and Civil Engineering Materials Tools , Machines and Measuring Instrument.

Denka Value-Up

OUR VISION

1 Business Portfolio Shift

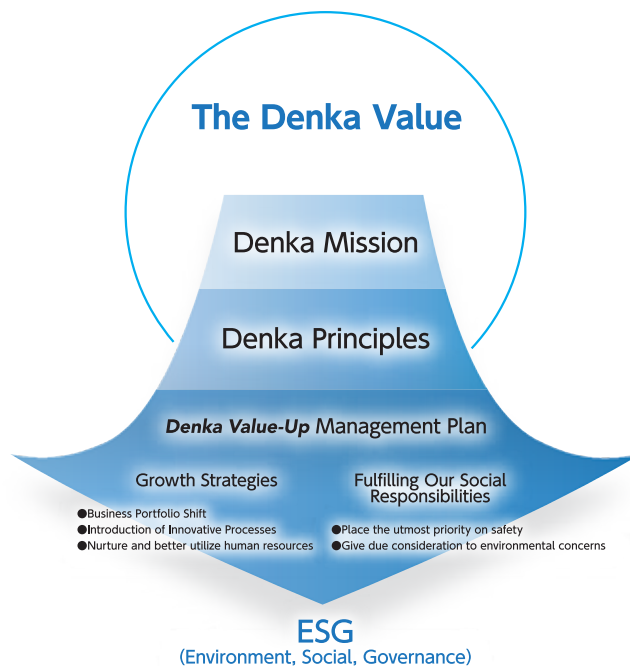

Accelerate Growth of Specialty Businesses

- > Healthcare
- > The Environment and Energy
- > High-Value-Added Infrastructure

Specialize our key operations
Work to increase "specialty grade" ratio in product lineup to secure resilience to changes in external conditions

2 Introduction of Innovative Processes

- > Production process reforms
- > R&D process reforms
- > Operational process reforms

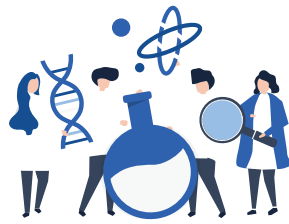

OUR MISSION

QUALITY POLICY

Using controlled processes, and standards, best practice and experience, we aim to provide quality products and good services, reliable and fit for their intended purpose

Our laboratory equipped by high accuracy, and calibrated test equipment to control and maintain product quality for our customer satisfaction.

Supported by technical expert with specialist team, we commit to give best solutions for constructions problem

**ASEAN
Development & Technology Center
(ADTC)**

We also has Research and Development facility on Malaysia and Japan site, who always works to provide great innovation and improvement on construction technology.
